Flying High with OOCL Logistics Airfreight Team

As a world class logistics service provider, OOCL Logistics anticipates changes in customer and market demands. We put ourselves in our customers' shoes and provide optimal supply chain solutions specifically designed to suit the needs of our customers.

Over the past two years, OOCL Logistics' Airfreight Forwarding service has continuously expanded in scale. Here are two success stories that represent milestones in this expansion.

On March 28, 2018 our Zhengzhou team received an urgent request from a customer. We had to arrange a shipment of oversized pipes from Germany to China before an April 25 delivery deadline. As each pipe was over 21 meters in length and weighed 2500

kg, they were too long to be accepted for rail service. OOCL Logistics suggested using an airfreight solution. The pipes were loaded onto an oversized truck in Germany on April 13 and successfully loaded at Amsterdam Airport on April 18 bound for China. Our team monitored the cargo discharge from the cargo aircraft on arrival in China and the truck move to Hangzhou, China. The pipes were delivered to the destination factory in Hangzhou safely on April 21.

In another example, OOCL Logistics received another urgent request from customer on May 3, 2018 to move five pieces of oversized heavy equipment from China to Germany by the following Monday (May 7). While the cargo arrived in Beijing on May 4, the Labor Day

holiday in China interrupted the normal workdays and the shipment did not clear export security checks and were held at the Beijing Daxing International Airport for 24 hours.

Our Beijing team closely communicated with our customer, airlines and ground crews, etc., and were able to complete booking, packing, and shipping procedures in just two days. All pieces of the shipment departed Beijing on May 6 and landed in Germany safely on May 7. Our customer was very satisfied with our performance saying, "It only took two days, everything went as planned and the impossible was done."

Maintaining a solution-oriented approach and utilizing our expertise in logistics, OOCL Logistics provides customer-focused programs and services that are efficient and cost-effective. For more details about airfreight forwarding services, please contact your local OOCL Logistics representatives.

OOCL Logistics Wins "Best Cold Chain Carrier of The Year" award

The Chinese cold chain market has grown significantly in past few years and the demands are expected to continue to increase through 2018. Along with the market growth, customer focus has increased on the quality of fresh foods and other perishable products. OOCL Logistics continues to increase its capability and improve the service levels in cold chain logistics.

We made significant strides to our work managing Walmart's cold chain project throughout 2017. We were excited to share that OOCL Logistics (China) Ltd has been recognized a "Best Cold Chain Carrier of The Year" award from Walmart on March 21, 2018.

We provide a wide range of services for Walmart including ambient temperature and perishable goods transportation, sorting and picking, cold-chain storage etc. We also

manage several fresh distribution centers and returned-cargo handling centers that support 80 Walmart stores in 8 provinces in China. Our services at fresh distribution centers in Kunming and Guangzhou met Walmart's stringent KPI levels to an average of 99.7% across many different factors including: safety, accuracy, temperature control and on-time delivery. Our success rests on our experienced staff, well-equipped facilities and technical support.

OOCL Logistics is dedicated to delivering reliable, quality logistics services for every customer and will continue exploring new opportunities and initiatives for future growth in response to market needs.

MARKET TALK

General Data Privacy Regulations (GDPR) became effective on May 25, 2018. It is a new set of regulations regarding personal data security and management implemented by the European Union. Many logistics and shipping companies, as well as a wide range of other businesses made this new program a high priority. OOCL Logistics is likewise concerned with the security of personal data we hold for every customer. Through comprehensive adherence to these regulations and utilizing best business practices in general, we ensure data security and privacy protection in all of our relationships.
