OOCL Logistics Continues Expansion in the Latin America Market

OOCL Logistics is excited to announce the expansion of our global network as we establish a new footprint in Costa Rica with the formal opening of OOCL Logistics (Costa Rica), S.R.L. . This new office will serve as our first owned location in Latin America. Opening ceremonies took place on Monday, February 15th 2021, with much local enthusiasm. OOCL Logistics is thrilled that our flagship office will deliver our scope of services and relationships throughout Central America and to our global client base.

This expansion is a major step towards our commitment to continue the growth of the OOCL

Logistics' brand and network in the region which currently includes South America and the Caribbean. OOCL Logistics strategically selected Costa Rica to aggressively expand our reach to offer innovative, customized supply chain solutions throughout Latin America. In addition, our Costa Rica office will also play an instrumental role in enhancing our operational efficiency within the Americas region, providing more comprehensive and competitive services to our customers.

In parallel with this expansion initiative, we will continue to work closely with our business partners

and exclusive agents to ensure all regional trucking, shipping, and air freight operations are moving seamlessly and according to the needs of our clients' global supply chains. We are devoted to providing innovative, customized logistics solutions to drive operational efficiencies and cost saving opportunities.

For more information on our expansive market coverage, please refer to [Our Global Network](#) page or contact our local Sales representatives to learn more about our competitive services in South America!

Implementation of tax and customs incentives for companies in Special Economic Zones from Indonesia

On 30 December, the Ministry of Finance (MoF) Indonesia introduced a new regulation regarding the Tax, Customs and Excise Treatment in Special Economic Zones, Kawasan Ekonomi Khusus (KEK), regulation number 237/PMK.010/2020 and became effective on 30 January 2021.

This new regulation allows taxpayers to enjoy the tax facilities where they are conducting business in Special Economic Zones within Kawasan Ekonomi Khusus (KEK). Logistics centers were added as an additional type of business permitted in KEK, to share similar purposes and incentives with the existing Bonded Logistic Centers (BLC) which encourage business establishment in the special economic zone during the Covid-19.

Taxpayers in these special economic zones are allowed to postponement/exclusion of import duty and excise, and non-collection of import taxes and domestic

value-added tax (VAT) or luxury-goods sales tax (LST), such as below:

- Non-collection of VAT and LST on importation of certain goods.
- Non-collection of Article 22 Income Tax on importation of certain goods.
- Exemption of import duty on importation of certain goods.
- Postponement of import duty on capital goods and equipment, and goods and materials for processing.
- Exemption of excise on importation of goods to be used to produce non-excisable goods.
- Non-collection of VAT and LST on the domestic purchases of certain goods.

OOCL Logistics will continue to monitor the latest update of global market movements and regulations, while adapting to change and providing critical advice to our valued customer.
