The new website marks an important step in our digitalization journey, making our services, expertise, and digital solutions more accessible. As a key platform connecting customers with us, it enhances access to information, digital tools and industry insights while supporting a more seamless customer experience.

OOCL Logistics Celebrates the Grand Opening of OM Bangkok Depot

On July 10, 2026, OOCL Logistics Thailand (OLTL) and MPJ Group celebrated the grand opening of their new OM Bangkok joint venture depot in Lat Kra bang, Bangkok, following the depot's commencement of operations in January 2026. The event brought together customers, business partners, and senior executives from OOCL and OOCL Logistics to celebrate this important milestone.

Strategically located near the Lat Kra bang Inland Container Depot (ICD) and major industrial zones, the new Bangkok facility spans approximately 38,400 square meters, with storage capacity for around 3,000 TEUs and handling capability of up to 10,000 TEUs per month. These capabilities support more efficient container handling, storage and empty-container management, helping customers improve landside coordination and cargo flow.

Since commencing operations in January 2026, the OM Bangkok Depot has achieved an average monthly throughput of approximately 7,500 TEUs and utilized around 70% of its yard capacity, reflecting strong market demand for its services. This achievement demonstrates the confidence that customers place in OOCL Logistics and highlights the growing demand for high-quality logistics and supply chain solutions in Thailand.

Michael Xu, CEO of OOCL Logistics, delivered the opening speech: "The opening of OM Bangkok Depot reflects our commitment to strengthening our landside capabilities and creating greater value for customers. OLTL has developed strong capabilities in warehousing, transportation, and ocean freight services. Building on these strengths, we will continue to expand our service portfolio and provide reliable, flexible, and end-to-end solutions that support our customers' business growth across Thailand."

OOCL Logistics China Awarded the “Best Enterprise Innovation Award 2025”

OOCL Logistics China (OLCL) Shenzhen Branch received the “Best Enterprise Innovation Award 2025” from the Shenzhen International Freight Forwarders Association (SIFFA) at its 2025 Annual Members Conference and Industry Awards Ceremony, recognizing the success of its proprietary Warehouse Management System (WMS) in enhancing operational efficiency and digital capabilities.

Powered by WMS system, our customers have achieved:

- Improved warehouse booking and verification efficiency by 60% through automated yard allocation
- Enabled real-time, end-to-end cargo visibility throughout warehouse operations
- Increased yard space utilization by 25% through AI-driven space optimization
- Reduced the operational error rate to below 0.1% through barcode and visual verification

Looking ahead, OOCL Logistics will continue to strengthen its digital capabilities and apply innovative technologies to improve operational accuracy, visibility and efficiency, creating greater value for customers and supporting the logistics industry’s ongoing digital transformation.
