

CEO MESSAGE ON CARGO SECURITY

The OOCL Logistics organization considers the safe and secure movement of cargo through our network to be of paramount importance. As a Logistics Services Provider operating on a global scale, we are responsible for serving three very important constituencies related to the shipments we handle and manage. The first of these constituencies are our customers who rightfully expect that we do our utmost to ensure the safety and integrity of the shipments they receive whichever part of the world they may be. The second area of our security commitment is that of supporting and implementing protective measures that the U.S. Government has designed to safeguard against passage of unsafe, or adulterated cargo into U.S. ports and cities. This commitment also covers entire global network besides the US. Thirdly, we must ensure that our employees are assured of safe and secure working environment in which shipments can be processed and stored.

In meeting these important needs OOCL Logistics has undertaken and continues to support and reinforce the following measures:

- OOCL Logistics is a certified participant in U.S Customs Department's C-TPAT (Customs-Trade Partnership Against Terrorism) program. Upon meeting the stringent standards for participation in this program, we were among the first organizations to receive its certification.
- We collaborate fully with the various governmental agencies in our global network to safeguard the integrity and security of shipments undertaken by us throughout.
- The security processes we employ throughout our network have been fully evaluated and upgraded where appropriate to take full advantage of state-of-the art processes and technologies
- High level management teams have been assigned to oversee and to promote the ongoing enhancement of security operations on both a global and local basis
- Our facilities are regularly monitored to ensure on-going adherence to our rigorous security standards.

These, and forthcoming, measures demonstrate the OOCL Logistics commitment to being a world leader in the reliable and secure movement of cargo.

Michael Xu
CEO, OOCL Logistic Limited
